http://www.monta.de/no_cache/en/products/search-tapes/details/news/detail/News/monta-pack-310/

monta pack 315 with a 35 μ m-BOPP film and 22g of special natural rubber adhesive
http://www.monta.de/no_cache/en/products/search-tapes/details/news/detail/News/monta-pack-315/

(available as hand rolls only)

BOPP low noise tapes with natural rubber combine a tear-proof backing material with a special adhesive formulation based on natural rubber. As opposed to acrylic adhesives, the adhesive doesn't just moisten the cardboard surface, but penetrates it and encloses the fibers. monta BOPP natural rubber low noise tapes perform even in challenging situations and fight their way through difficult surfaces.

BOPP natural rubber low noise tapes are ideal for high volume packing environments and workplaces where minimum noise is required. monta BOPP low noise tapes with special natural rubber adhesive provide excellent adhesion and secure cartons sealing.

Noise can negatively impact the working environment, reduces concentration and might even create stress. Therefore monta BOPP low noise tapes are a good investment which helps to create a pleasant and comfortable working environment.

monta Klebebandwerk GmbH is the leading manufacturer of self-adhesive tape with natural rubber adhesive. The product range contains PVC, BOPP, MOPP (strapping), paper and PET self-adhesive tapes in different thicknesses and colors.

Adhesive tapes from monta are manufactured at the Immenstadt location in the south of Germany and are distributed by dealers and converters worldwide with an export-share of 50%. The company employs a total of 130 staff members and produces more than 220 million m² of adhesive tape per year. The fix-pack companies with locations in Hungary and Romania are part of the monta group.

State-of-the-art production plants, strict quality specifications as well as the highest degree of safety and the certified management system set standards in the packaging industry. monta is certified according to DIN EN ISO 9001, 14001 and 50001.
