

PREMIUM QUALITY FROM MONTA

MONTA PACK 124

Our **premium adhesive packaging tape** combines extra strong PVC film with powerful natural rubber adhesive to securely close your heavy and demanding cardboard packaging.

The powerful natural rubber adhesive encloses the cardboard fibres, thereby providing a permanent connection between the cardboard and the adhesive tape. Recycled cardboard boxes with a smooth surface and multi-wall cardboard packaging also remain sealed thanks to the particularly high adhesive grammage. Our monta pack 124 can be used manually, with a tape dispenser and on packaging machines with a prestripper.

Special areas of application include packaging for high-quality components in the automotive industry and for adhering to difficult or dusty surfaces, for example in the furniture industry.

Properties:

- quiet and even unrolling
- very high tensile strength and stability
- excellent immediate tack and adhesive strength on a variety of surfaces
- low elongation
- moisture resistant
- resistant to diluted acids and alkalis
- temperature resistance: from -20° C to +70° C for a short time after processing at room temperature

Technical values	Unit	
Backing material		Rigid PVC film
Adhesive types		Natural rubber
Tear resistance	N/25mm N/cm	min. 150 min. 60
Thickness	mm	0.065 ± 10 %
Adhesive strength on steel	cN/25mm N/cm	550 ± 150 2.2 ± 0,6
Colour		transparent, white, brown
Core diameter	mm	76

Certified monta quality:
ISO 9001:2008 quality management,
DIN EN ISO:14001:2009 environmental management,
EN ISO 50001:2011 energy management
